# INNOVATIVE SKILLS IN ITC: GOING DIGITAL

- ▶ CHURROS, DON QUIJOTE DE LA MANCHA, FLAMENCO  
VITAJTE V ŠPANIELSKU 😊

Zuzana Romancová (anglický jazyk) a Daniel Fernández Cantalapiedra (španielsky jazyk) reprezentovali našu jazykovú školu v októbri 2024 na týždňovom odbornom kurze v anglickom jazyku neďaleko Madridu, v Alcalá de Henares.

Ďakujeme!  
Ing. Alžbeta Blašková  
koordinátor

# INNOVATIVE SKILLS IN ITC: GOING DIGITAL ODBORNÝ KURZ

5 - 11 OKTÓBER , ALCALÁ DE HENARES, ŠPANIELSKO

- ▶ Podme si prečítať v angličtine, ako sa zmenil Danielov pohľad na digitálne technológie po absolvovaní kurzu.
- ▶ „We can learn a lot from the students in ICT. And we can also contribute a lot: by facilitating perspective in its use, to make it healthier and more balanced,“ said Daniel Fernández Cantalapiedra.
- ▶ „ICTs are more important than ever if you want to be ‘in the game’ with students. Sometimes I have the feeling that technology is moving much faster than we are: but, have we lost control? The dilemma opens up: ‘if you can't beat the enemy, join him’. Although, of course, technology is not meant to be our enemy, but to be at our service and make classrooms a more productive and learning place.
- ▶ It is essential to give the student a place and a voice so that he or she can guide us through this sea of technologies that we have at our disposal today. If there is anyone who is up to date on this, it is undoubtedly the students: the teacher must be humble, be open to learn and for the love of the student, let him or herself be guided and learn from him or her.

# INNOVATIVE SKILLS IN ITC: GOING DIGITAL ODBORNÝ KURZ

5 - 11 OKTÓBER , ALCALÁ DE HENARES, ŠPANIELSKO

► Pod vedením lektorky Sonie López sa naši učitelia dozvedeli o vzdelávacích platformách, ktoré umožňujú preniesť vyučovaciu hodinu do digitálneho sveta. Spoznali bližšie historické pamiatky a zvyky Španielov. Navštívili univerzitu a múzeá. Sonia López im bola viac ako inštruktorkou vzdelávania, bola nám mentorkou, sprievodkyňou , ako povedala Zuzka Romancová. Ďakujeme!
